

An aerial photograph of a modern architectural complex, likely a university or research facility, situated on a lush green hillside. The complex features several interconnected buildings with curved, stone-clad walls and large glass windows. A wide, paved plaza with a grid pattern leads from the buildings towards the ocean. The surrounding landscape is filled with green trees and lawns. In the background, the deep blue sea stretches to the horizon under a bright blue sky with scattered white clouds. The overall scene is bright and scenic, suggesting a high-quality location for an international workshop.

WDM2023

11th International Workshop on Warm Dense Matter

June 25–30, 2023

Awaji island, Hyogo, Japan
